\* Actual average reimbursement rate will vary by client insurance and number of sliding scale clients.

\*\* Assumes a 48-week year. Actual sessions per year will vary by individual based on amount of PTO used, kept session rate, and similar factors.

\*\*\* Gross earnings are calculated before any taxes or deductions. Gross earnings do not include percentages for group therapy sessions, late cancellations, or no shows. Gross earnings will vary by individual based on multiple factors, such as average reimbursement rate and sessions per year.

This Earnings Example is an estimate based on the factors stated above and is not a guarantee, promise, or representation by IntraSpectrum Counseling.
